

Please do not implement any proposals which would lessen Indiana's current Telephone Privacy Law protections. This law has greatly improved my family's time at home. We are no longer interrupted during dinner, homework, bathtime, etc. by annoying telemarketing calls for products and services for which my family has no interest in. We also no longer receive hang-ups on our voicemail for calls which were received when we were not home. Our household averaged 10 - 15 calls per week, sometimes 5 in one day before this law was implemented. We now receive none! This law has greatly improved our home life as well as protecting our right to privacy. Please DO NOT adopt a lower national standard!!
